It can be seen that almost fifty per cent of the income of the municipio is derived from four sources: the slaughter of animals, the payment of residents in lieu of working twelve days a year in public service, the exemption of publication of acts in the civil register, and taxes from the use of communal resources.

The income of the municipio over a twelve-year period from 1931 to 1943 (data for 1936 were not available) is shown as follows:

Year	*Income* (Pesos) [a]
1931	4,360.74
1932	2,586.35
1933	4,855.91

[a] The figures for 1931 are for ten months, and those for 1932 are for six months. All others are for a twelve-month period.

income from this source indicates how rarely movies or other public entertainment comes to the village.

[b] According to state law, marriages and other acts recorded in the register should be officially announced by posted notices in the *ayuntamiento* and in the official government bulletin. But Tepoztecans shun this kind of publicity and by paying a special fee can avoid it. The same thing occurs in relation to the reading of the marriage banns by the priest. By special payment this also can be avoided.
